

TPG Engaged Wellness Solution

It's Time for Healthier Employees & Stable Rates With a Health Support Partner Who'll go the Distance for Your Business!

The Partners Group (TPG) now exclusively offers a total package wellness solution for fully insured businesses with 51-300 employees: The Engaged Wellness Solution consists of a medical plan from an established Oregon-based health plan embedded with an employee wellness program from a leading workplace wellness company. Whether you offer a single plan or dual plan to your employees, TPG Engaged Wellness Solution will benefit your business and your bottom line.

TPG Engaged Wellness Solution

As a participation-based wellness program, the TPG Engaged Wellness Solution will build employee awareness and look for a way to improve their health over a three year period.

The Impact on Your Business

Helping your employees stay or become healthy may not only impact their health, workplace satisfaction and productivity, it may also impact your bottom line in numerous ways:

Rate stability and predictability — Saves you the hassle of shopping and changing to a new health plan year after year.

Competitive rates — From the start, along with a first year rate tied to employee engagement in wellness activities and utilization.

Simple — Single billing that combines health plan and wellness costs together, making it easy for you.

You'll also benefit from a program that is easy to implement and administer, requiring little time and effort from your HR staff or Management.

The Impact on Your Employees

This program is as much about keeping your healthy employees "healthy" as it is about getting your unhealthy employees to become healthier. **TPG Engaged Wellness Solution** builds awareness to your employees' health and may provide them with the impetus to make healthy lifestyle changes. Encourage and reward all your employees to participate:

— Reward employees who are motivated by the value of an immediate financial

reward of a lower premium.

— Reward employees who are motivated by the value of a lower deductible plan.

This is a year over year approach and will ease your employees into their wellness journey. Wellness activities include:

During the first year —

— Biometric screenings (including: Cholesterol, Blood Pressure, Blood Sugar, Body Mass Index)

THE
PARTNERS
GROUP

UNIQUE BENEFITS

- Flexible & affordable plan development and design
- Effective benefits communication strategies with enrollment services
- Emphasis on health, wellness and financial security
- Increase satisfaction & productivity, decrease absenteeism

During the second year –

The Extra Mile

The Partners Group (TPG) provides exceptional employee benefits, commercial

insurance retirement planning and investment services with a strong commitment to our clients. We bring experience, expertise and innovative solutions, while building authentic relationships with businesses to help your employees succeed in health, wealth and retirement planning. The Partners Group approach centers on client-focused and localized service to deliver greater quality and value to you as our customer.

Powered by C²

The Partners Group is a founding member of Collaboration Centric Solutions (C²).

C² is a joint venture that brings together many of the nation's largest, independent employee benefits consulting firms. With more than 30 strategically-located offices throughout the country, C² is the seventh largest privately-held employee benefits firm in the nation.

Member firms joined forces for one purpose: strategic collaboration with carriers, vendors and members to create innovative product and service offerings, while delivering greater quality and value to clients. C² firms now are able to offer the widest variety of products and services to their valued clients.
